2. Connecting Printers
3. Select Software
4. Installation
5. Finish

Are you setting up your printer for the first time?

Setup will guide you to connect your printer on your network using an ethernet cable.

If you are setting up the printer for the first time or you want to change the printer's network configuration, select "Yes".

If your printer is already connected on your network, select "No". Setup will search for your printer on the network.

○ **Yes, I will set up my printer's network.**

◉ **No, my printer is already connected to my network.**
